

Dear Physician,

We welcome you to HealthShare Works as a physician caring for one of our members. There is nothing to sign; no fees to pay or deductions from the payment for you to participate; no claims to file.

Our “network” is any physician and their colleagues who agrees to see one of our members. Indeed, our community of physicians recommends charging up to one and a half times the what is usually paid as usual and customary (e.g., Medicare) rate!

Your patient will pay you for your services at the time of the visit, up to their personal responsibility. All we ask is for you to provide your patient with a receipt showing services (procedures and diagnoses) rendered, indicating what was paid.

We trust your professional judgment to refer your patient to whichever colleague or tests you deem appropriate.

For larger bills, such as for invasive procedures, long-term therapy or acute care, our member will put you in touch with a knowledgeable counselor at our firm to discuss options for treatment as well as for payment. We ask our members to get a second opinion for any surgical intervention.

That’s it! Nothing more is required. Thank you.

Sincerely,

Maurice Reifman, Ph.D. CEO

P.S. Want to enroll yourself and save over 50% for your own healthcare plan? Please ask when you call. We have been doing rational healthcare for over four decades.
